

DOES YOUR IDEA HAVE WHAT IT TAKES?

Fruition Tech Labs is a Hub which provides all the resources you need to start and grow your business. We facilitate the development of the purpose-driven ideas of entrepreneurs and engineers, into technology based companies. We are passionate about turning viable technological ideas into products and business that are driven by a clear and sustainable purpose. We offer more than advice on the fundamentals of starting up a business, we help companies develop and grow by taking them through each step of our proven 5 Step Process.

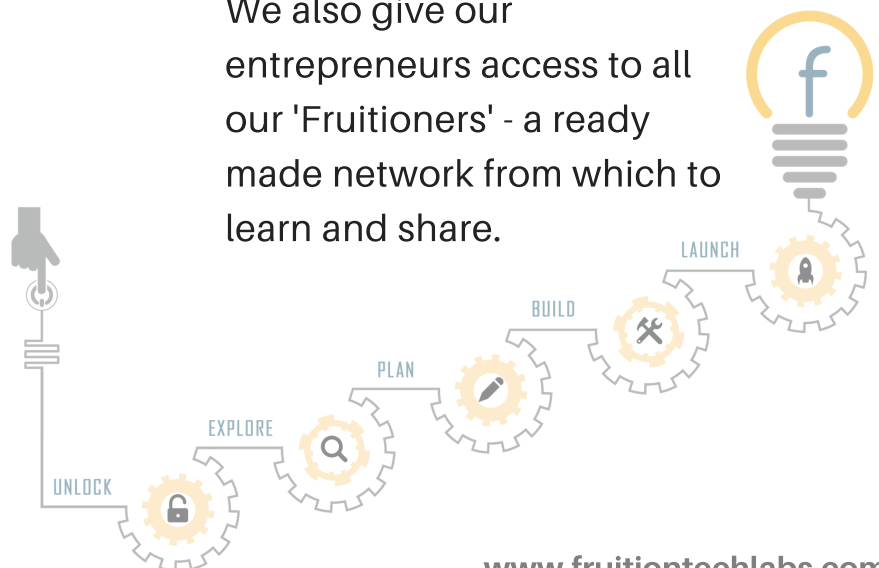

We realize that too many great ideas and inventions are never materialized, due to a lack of funding, mentorship, business networks, resources, equipment and time. We cultivate the development of ideas and focuses on bringing them into fruition.

Our incubator team's mission is advancing today's technologies in the areas of: Bio-engineering, Robotics, Alternate Energies, Information Technology, Automation and Crisis Response, all for the betterment of humanity.

**Take our 1 minute
test and we'll be in
touch if your idea
has potential.**

WHY APPLY TO OUR 5 STEP PROGRAMME?

- Our '5 Steps to Fruition' acceleration programme provides a unique service that enables companies with an existing commercial product or an established business to achieve substantial new growth.
- We redevelop the core foundation of your business into a Purpose Driven Entity.
- We support and enable the growth and commercialisation of your ideas with expert guidance, research, grant, and intellectual property initiatives.
- We give access to technical resources and equipment, common facilities, shared services and business expertise available through partner organizations, tech companies, and entrepreneurs.
- We foster collaboration, ensuring our entrepreneurs' journey is never a lonely one. Every client is matched with a committed interim COO to help with the stability, guidance and support that is essential for the development of a product into a business. We also give our entrepreneurs access to all our 'Fruitioners' - a ready made network from which to learn and share.
